

Top 4 Major Initiatives – 2014-15
Finance Unit

1. Develop and deploy a plan to improve the overall Concur system so that it is more customer friendly and simpler to use.
2. Paycards are being used with great success by other Michigan Public Universities. The Finance Unit will research and recommend a plan to implement paycards in lieu of paychecks for new employees, part-time and student employees.
3. Customers have been asking for a “less paper, easier to track” improvement to paper personnel action forms. The Finance Unit will support the development and implementation of “ePAF” for the part-time employees along with HR, IT and our Banner support partner, Ellucian.
4. Complete the best possible financial analysis of GASB 68 regarding the University’s retirement liability and provide mocked up financial statements by January 1, 2015 to inform future planning conversations.
