**Ferris State University Diversity Plan 2008-2010**

1. Create a University that is welcoming to diverse populations.
4. Create environments for student learning that are inclusive of and sensitive to diverse student population.

**Ferris State University Strategic Plan**

Goal 5: Foster collaborative internal and external working relationships.

**IV. Abstract (150-200 word, use additional paper if necessary). If the application is approved the abstract will be posted on the Diversity and Inclusion Office website.**

The Spiritual Exploration Fair is designed to help Ferris State University students enhance their spiritual development. This event will be set up as resource fair with tables being hosted by spiritual RSO’s, local spiritual centers/places of worship, and underrepresented spiritual centers/places of worship from outside of Big Rapids.

**V. Event Narrative (up to 4 pages single-spaced)**

a. The conceptual framework that explains how the event will augment Ferris’s long-term commitment to diversity and inclusion.

We recognize the importance of whole student development and typically spirituality is not always addressed. It is through this upcoming experience that we are intending for students to appreciate the opportunity for connectedness to others and the world. Students at this stage of their life are seeking avenues to find meaning and purpose, especially as it relates to enhancing self-understanding, preparing for healthy citizenship, answering life’s big questions, and finding calm and centeredness in times of stress. This experience, we believe will continue to meet Ferris’s commitment to diversity and inclusion by promoting a community that is caring and compassionate and even more humane. This co-curricular experience compliments what students are learning in their courses, from peers, and faculty/staff. As Alexander and Helen Astin (student development researchers) suggests in their research for the book *Cultivating the Spirit – How College Can Enhance Students’ Inner Lives*, spiritual development can have an impact on academic achievement, satisfaction with college, psychological well-being, leadership self-concept, and promoting racial understanding.

b. The goals and intended outcome(s) of the event.

- To provide a forum for Ferris students to become aware of the Big Rapids and regional resources available to support their spiritual development.
• To assist students in becoming familiar with faith-based registered student organizations.
• To connect students with community organizations that promotes servant leadership, positive change, and volunteerism.
• To encourage the development of a community where students, faculty, and staff can thrive harmoniously, foster peaceful action, and promote cultural understanding.

e. Description of the target audience, including the estimated number of participants.

   The target audience for this event is new students attending the University and students looking to grow spiritually. We are hoping to have around 150-200 students attend this event and over 50 spiritual centers/places of worship and all of the spiritual RSOs participate.
f. The expected impact that the event will have on Ferris.

We are hoping that this event has a lasting impact on our students’ spiritual development. In the short term, we hope that participants who attend the event looking to find a spiritual center/places of worship are able to connect with one. Over the long term, we hope this event helps our students become better global citizens by enhancing their understanding of different religions and worship practices.

In addition to what our students take away from this event, we are hoping that this can also reinforce the community support from local spiritual centers/places of worship that serve our students. This is an opportunity for the University to formally recognize the partnership that they play and the impact they have on our students while attending the University.

g. A specific plan to assess the impact of the event on the University.

We will look to develop a survey for students participating in the Spiritual Exploration Fair to measure what students have learned from this event, what impact it had on their spiritual development, and if they were able to connect with a spiritual center/place of worship. To encourage students to fill out the survey, we will be offering multiple incentives sponsored by the Office of International Advising.

VI. Budget
