QUESTIONNAIRE FOR STUDENTS WITH ADD/ADHD

In an effort to identify how your Attention Deficit Hyperactivity Disorder/Attention Deficit Disorder (ADD/ADHD) diagnosis is currently and uniquely impacting you, we ask that you fill out the following questionnaire. Documentation of your disability from a licensed professional, as stated in the Summary of Disability Documentation guidelines, is the primary source of information used for establishing your eligibility for disability services. This questionnaire will help Educational Counseling and Disabilities Services gather additional information, from a personal perspective, about how you see your diagnosis impacting your academic and personal life.

Please note: The information we are gathering is for the purpose of learning how your diagnosis uniquely impacts you; however, the primary role of Educational Counseling and Disabilities Services is to provide academic accommodations based on the manifestations and academic implications of the diagnosis. Information gathered within the listed categories does not necessarily mean that accommodations will be provided for those areas (transportation, spatial issues, social issues, etc).

Please have a parent, spouse, counselor or someone who knows you well review this with you after filling it out. Please provide as much information as possible. After completion, mail or fax to:
