Mecosta/Osceola Intermediate School District continues HVACR Vocational Program in Granger

For the second year, Bob Persons teaches the local HVACR program in the Granger Center in addition to his university teaching load. This year, 12 students attend each day to learn about the installation, maintenance and repair of refrigeration, heating and air conditioning systems for residential and commercial buildings. For more information on this program please visit: www.ferris.edu/cot/hvacr/academics
