Why Choose Small Business and Entrepreneurship?
This program is designed to provide potential small-business owners and managers with the knowledge and skills to operate a successful business. More than half of the program’s courses relate to managing a small business, including accounting, finance, marketing, human resource management, economics, computer systems and law. In addition to management knowledge and skills, the program offers the chance to explore entrepreneurial opportunities.

To gain practical knowledge, you visit and interview small business owners. In addition, you can participate in a Ferris internship program, earning University credit while gaining work experience.

Get a Great Job
Small businesses represent the vast majority of businesses in the United States. Property prepared owners and managers are the key to success in our competitive economy.

For many people, owning their own business is the fulfillment of the American dream. The successful small business—a restaurant, day care center, sporting goods store, computer services business, etc.—provides financial independence and professional satisfaction.

The outlook for graduates in this field is bright, with a variety of positions available in virtually every city in the nation.

Admission Requirements
Applicants must present evidence of graduation from high school or the GED. To enter a Bachelor of Science degree (B.S.) Program in Business, applicants are expected to meet two of the following: a minimum high school grade point average of 2.50 (on a 4.00 scale); ACT math score of 19 or higher; an ACT reading score of 19 or higher.

Graduation Requirements
The Small Business Management and Entrepreneurship program at Ferris leads to a bachelor of science degree in business. Graduation requires a minimum 2.0 GPA in core classes, in the major and overall.
