

The latest training topics, news, and announcements

What's Happening Now

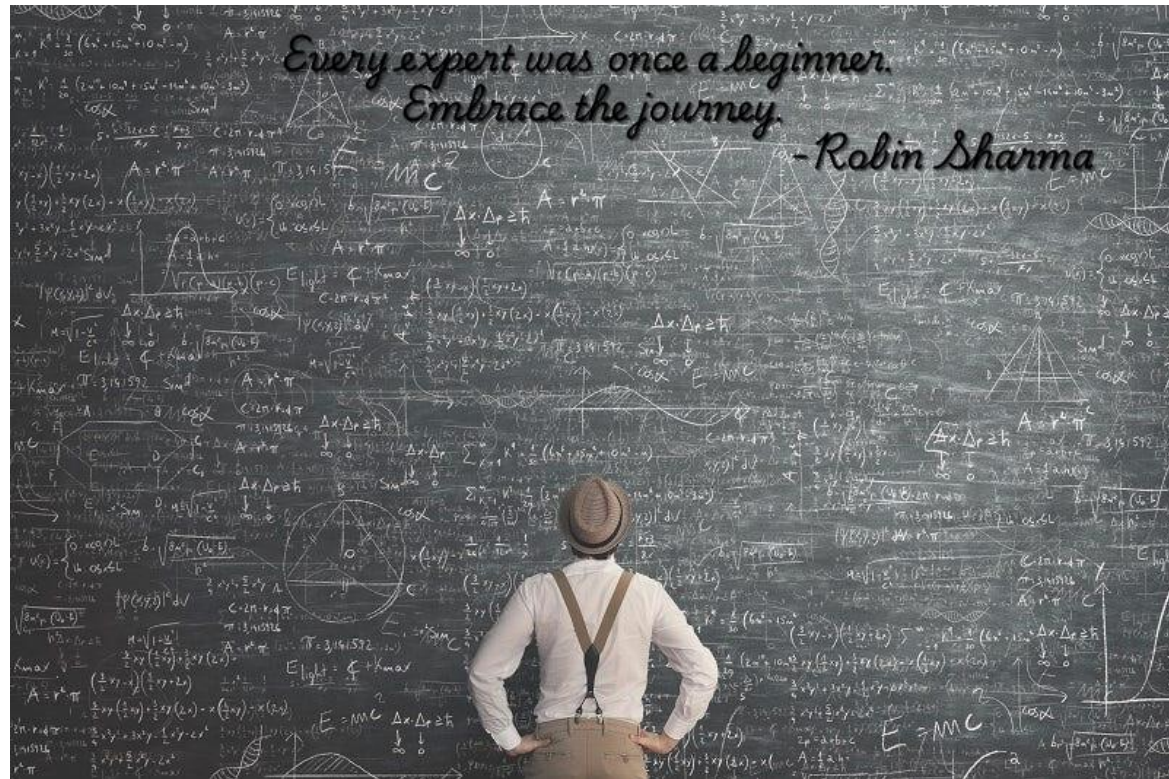

The financial aid team is finessing applications, questions, matching criteria, and more.

What's Ahead

Christmas Break 🎄👴
Encourage students to set aside time over Christmas break to complete applications 📄

Important Dates to Remember

Go live date is **December 15, 2024**. Log into SU before the launch to explore the system.

The Staff Side

"So how does SU work...?"

You may have found yourself asking this question in the last few months, and especially weeks. It may have emerged in regards to a particular area, like: "How can I find a list of the scholarships for my college?" or "What do my committee members see?" On the other hand, you may have also noticed a less defined uncertainty about the system suspended in the recesses of your mind, amid other questions and tasks. Perhaps you have experienced both.

Learning how to utilize new software always takes time and brings new challenges, especially when we all come with varying levels of expertise and experience. Mastering SU will not happen overnight, or even over the next few months. We'll continue to learn and get better over the coming cycles, financial aid staff included! Consider this video—[Part 1](#) and [Part 2](#)—a simple introduction to the admin side of the system and its functionalities. I am certain that within a few months' time, though you may not feel like an SU master, you will be able to look back at this point and be astounded at how your comfortability with the system has grown.
