The latest training topics, news, and announcements

## What's Happening Now

Financial aid advisors are diligently working to get SU set up for the 25-26 awarding cycle.

---

## What's Ahead

Stay tuned for training updates on all kinds of relevant topics as the application window approaches.

---

## Important Dates to Remember

Go live date is **December 15, 2024** and the window closes **February 28, 2024**. Be sure to remind students that this is quickly approaching and encourage them to apply!

## SU Public Listing

**The public listing is a feature that allows our bulldogs and their families to connect with the scholarships and dollars made available by our donors. The best part is that they can do this all year long!**

That's right, the public listing is a feature that is available on the Ferris website all year long- not just during the application window. It is a comprehensive list of all our scholarship offerings for the given aid year. To access the public listing and review all the scholarships that were available to students for the 24-25 school year, follow these simple steps:

1. Visit [ferris.edu/su](https://ferris.edu/su)
2. Scroll to the bottom of the page and click on "Public Listing"
3. Watch this [video tutorial](#) where I explain how to utilize the features to find information about your specific college.

### Public Listing

The ScholarshipUniverse Public Listing allows students, parents and others, to view a comprehensive list of Ferris State Scholarships, even when the application period is inactive. When students view the Public Listing, only scholarships that reflect an application date will require additional action.
