FerrisConnect Advisory Board Meeting - FAB

Thursday, July 8, 2010 – 1:00 – 2:00pm in IRC 131

Meeting Agenda

1. Technical Updates - Mary

   Version 8.04 is in the Test environment! – Testing should happen in the next 3 weeks and all testing information (comments, issues, etc) sent to me by Aug. 2nd. In order for us to adopt for Fall 2010 Semester, this would be updated on our August 5th maintenance night.

2. FerrisConnect 2.0 Course Management System Report – Bill

   A. A discussion will take place about using a pilot for this Fall for a few faculty. Some questions to consider:

      Single Sign On:
      How will students access these courses?
      What ID and password will they use?
      Does it need to be linked to Novell?

      Integration
      How will the classes, sections, students, faculty get loaded into the courses?
      Do you want real time?
      Will the ICGORLDI report work?

      How long will the students be able to access these courses after the semester?

      Are there any concerns about security since we will not be hosting these applications?

   B. We also need to discuss criteria that would be used for deciding the best product.

3. Input about what we should be looking for in Bill’s replacement - Robbie

4. Next Meeting:

   Let’s discuss our Summer meeting dates

5. Other
